

# INDUCTWARM® ROOM SERVICE TABLE

## ADVANTAGES OF THE ROOM SERVICE TABLE:

- First-class service: dishes can be served warm to the hotel room without hotboxes
- Battery-powered induction unit underneath the table top is invisible for guests – for a premium look and feel
- Energy-efficient and safe technology
- Modern, elegant design of the table
- Movable side-panels of the table can be folded down for easy transportation and storage
- Warranty: 2 years

## KEY FIGURES OF THE INDUCTION UNIT:

- Battery-powered induction unit for keeping food warm on approx. 50° C for a duration of 30 minutes
- Markings on the table top show the ideal location for up to two plates – these must be induction-compatible!
- Display of operating status via LEDs
- After 30 minutes, the unit turns off automatically (auto-power-off) – no need for manual switch-off or for any interaction of the guest
- To restart another warming period, the power switch must be switched OFF and ON again
- Approx. 3 to 5 warming periods of 30 minutes each are possible with a fully charged battery

Input Voltage (for charging)	110-230VAC
Inductive Power	max. 800
Battery Power	16Ah
Plate Temperature	50°C
Auto-Power-Off	30min
Charging Time	approx. 8h
Weight of induction unit	14.4kg
