

Dear Max Mustermann

Though the situation with Corona in Switzerland is serious, we would like to let you know: All members of the Gastros-team are doing well. We took all the necessary steps to keep our business running and to continue our support for you safely. As you can read below, we even received two [new awards](#) and updated our [cover material guidelines](#) for you.

Of course, all requests, orders, feedbacks etc. will be processed in a timely manner. You can contact us at any time via phone under +41 44 545 32 40 or via mail to info@gastros.swiss.

We know these times are tough for the whole hospitality sector. Therefore we wish you all the best for your business and – this seems to be most important – the best of health for you and your relatives.

Award-Winning Technology

The year 2020 has only just begun and we already have won two awards for our newest innovation, the InductWarm® Battery Module:

Intergastra Innovation Prize

In February 2020, we have received the prestigious Intergastra Innovation Prize in the category "Kitchen Systems" during Intergastra trade fair in Stuttgart, Germany.

"NEXT of Market" Award

Only a few days ago, we have been honoured with the "NEXT of Market" – an award for trend-setting solutions and concepts, which have been introduced to the market just recently.

Current Cover Material Guidelines

Whether artificial stone, glass or wood: Our induction module InductWarm® 130+ can be installed invisibly underneath counter-tops made from various materials. After some long-term experiences and several tests of new materials, we have updated our cover material guidelines for you.
