

It's summer: we're cooling.

Dear Miss/Mister Dr. Mustermann,

For warm days and cold dishes, our InvisiFreeze™ cooling module is the ideal addition to your buffet. The InvisiFreeze™ undercounter module blends into your interior design just as invisibly as our invisible warming units do.

The InvisiFreeze™ module is installed under the buffet surface and cools the top buffet layer. It is the perfect combination of innovative technology and complete design freedom - for maximum individuality and flexibility in the design of your buffet.
